

Meeting Record

Date	17 th January 2022 (Mon), 16:30-18:00
Venue	Video conference using Microsoft Teams
Chair	Paul Bussey
Author	-

Attendees	Name	Initial	Organisation
1	Paul Bussey (chair)	PB	AHMM
2	Tony Corcoran (guest speaker)	TC	ASFP
3	Phil Brownhill (guest speaker)	PB	ASFP
4	+44 758 325493	??	??
5	Benjamin Ralph	BR	Foster + Partners Limited
6	Gary Burden	GB	PRP Architects
7	Chris Ottaway	CO	Ottaway and Associates
8	Ciaran Gallagher	CG	Hawkins Brown
9	Nadine Edur	NE	Hawkins Brown
10	Roland Reinardy	RR	Hawkins Brown
11	Dan Mahony	DM	Studio Egret West
12	David Brook	DB	Nicholas Hare Architects LLP
13	David Mulligan	DM	Network
14	Douaa Abdulhadi	DA	Scott Brownrigg
15	Ralph Isitt	RI	Scott Brownrigg
16	Sarah Susman	SS	Scott Brownrigg
17	Gavin Bull	GB	HSE
18	George Poppe	GP	Sheppard Robson
19	Lee Harvey	LH	Redline Fire Safety Consultancy
20	James Journet	JJ	Architectural Tiles
21	Jeffrey Tribich	JT	Tribich Consultancy
22	Jeremy Williamson	JW	Grid Architects Ltd.
23	Jim Fifield	JF	Veretec
24	Martin Touška	MT	Rolfe Judd
25	Nick Panayiotou	NP	P&P Architects Ltd.
26	Peter Hegarty	PH	Chapman Taylor
27	Peter Taylor	PT	Leslie Clark
28	Philip Willis	PW	PDP London Architects
29	Richard Price	RP	Sweco
30	Richard Mills	RM	Reardon Smith Architects
31	Richard Tyrrell	RT	iM2 Limited
32	Roy Hewitt	RH	Ryder Architecture
33	Russell Smith	RS	Robinson Low Francis
34	Simon Archer	SA	Architectural Services
35	Pav Singh	PS	Arcadis
36	Alain Speed	AS	PRP Architects
37	Shoaib Shaikh	SS	Jackson Coles LLP
38	Goh Ong	GO	AHMM

NOTE ON COVID-19: Since 23rd March 2020, all DIOHAS meetings will take place over video conference.

Speaker

Presentation Title: ASFP – RIBA CPD E-Learning Platform

Background:

The innovative e-learning platform developed by the ASFP offers an opportunity to provide an online CPD training solution for Passive Fire Protection, using high quality adaptive learning techniques, tailoring the learning experience to an individual's skills, knowledge & experience, ensuring every learner receives precisely the right level of instruction and support to achieve the required levels of understanding. Through this e-learning platform, the ASFP have the ability to create a series of RIBA specific e-learning CPD modules, providing RIBA architects/designers with CPD content covering the broad subject of passive fire protection. A draft of the RIBA CPD module will be presented during the meeting.

Guest speakers:

Tony Corcoran is the Membership Officer for the ASFP and has worked within commercial, market & product developmental roles with system providers & manufacturers within the global construction industry for over 30 years. The ASFP serves and represents the needs of its members and the wider passive fire protection industry, promoting continuous improvement in all aspects of passive fire protection and by working with Government and international standard setting bodies both directly, and via other sector group associations, the ASFP endeavours to increase the quality of installed fire protection within all forms of construction, leading regulatory and behavioural change as an independent authority whilst improving competence and quality through training.

Phil Brownhill was appointed as Head of Training to establish the ASFP's (Association for Specialist Fire Protection) new training programme, with a view to improving levels of competency throughout the passive fire protection sector of the construction industry, from design to installation and ongoing maintenance. Phil has over 30 years of experience in the passive fire protection industry, having started his career with Promat in 1989 and worked for a range of manufacturers including Cafco and Isolatek International. He also worked with Building Research Establishment in the development of its Installer certification scheme. Phil has been involved in a range of ASFP, British Standards Institute and CEPE committees, the European Council for the paint Industry dealing with reactive fire protection coatings and was Chairman of the ASFP TG2 task group responsible for non-reactive fire protection to steel sector.
